

Report title: Successful logon report

Description: The report is based on event 528 - successful logon and event 540 - successful network logon. The report shows all successful logons, enabling you to monitor the users successfully accessing the computers using various logon types, and at the same time achieve compliancy with the legal acts which require monitoring of access to the company's resources. The report is grouped by users thus providing a quick view of the computers used by each user.
